CANTORI

A contemporary tale

Alta qualità, versatilità espressiva, design. Linee sceve ed essenziali che contraddistinguono arredi contemporanei, ma dall'allure senza età.

Elementi di congiunzione tra passato e presente come il metallo e il cuoio, grandi protagonisti delle nuove proposte d'arredo.

High quality, expressive versatility, design. Unadorned, essential lines that distinguish contemporary furnishings with an ageless allure.

Connecting elements between past and present such as metal and leather, great protagonists of the new furnishing proposals.

of an intimate space

La struttura di Vico è in tubolare di ferro formata da cornici sovrapposte asimmetriche, da una parte la libreria dall'altra porta TV, che possono essere scelti separati o riflessi. I ripiani e i cassetti sono in legno laccato e antigraffio. Lo schienale è in frassino grigio, con venature a vista.

L'asimmetria e la struttura a vista lo rendono un prodotto dove funzione ed estetica convivono in perfetto bilanciamento.

The structure of Vico is made of tubular iron formed by overlapping asymmetrical frames, on one side the bookcase and on the other the TV stand, which can be chosen separate or mirrored. The shelves and drawers are made of lacquered, scratch-resistant wood. The back is made of grey ash with visible grain.

The asymmetry and visible structure make it a product where function and aesthetics co-exist in perfect balance.

Nelle collezioni Cantori, l'introduzione di nuovi materiali come il cemento, e l'utilizzo di materiali cari all'azienda come il metallo, si accompagna a un design funzionale ma dai riferimenti estremamente colti. Nasce il tavolo Arcano dalla grande personalità, che trae ispirazione dai paracarro ed è un "prodotto tipicamente street, metropolitano e contemporaneo" come afferma il designer Maurizio Manzoni.

In Cantori's collections, the introduction of new materials such as cement, as well as the use of classic Cantori a material like metal, is accompanied by a functional design enriched by extremely sophisticated references. Thus the Arcano table was born, a piece with a great personality that draws inspiration from the classic curbstone, representing a "typically metropolitan and contemporary 'street product'" as explained by the designer, Maurizio Manzoni.
