CANTORI

Cantori disegna e rappresenta il gusto contemporaneo, all'insegna delle sensazioni delicate, delle emozioni minimali e sofisticate, delle tonalità cromatiche intimiste. Sinonimo di qualità, manualità, ricerca del dettaglio, requisiti di un autentico prodotto italiano, Cantori si contraddistingue per le sue creazioni, ideate e realizzate per diventare dei pezzi unici e prestigiosi da vivere. L'alta qualità e la continua ricerca sono valori di un gusto raffinato che Cantori rispetta costantemente in ogni progetto. La bellezza della forma e la straordinaria varietà di proposte possono conquistare fin dal primo sguardo, ma è solo toccando fisicamente con mano la qualità dei materiali utilizzati e la solidità delle strutture, che si comprende davvero l'assoluta inimitabilità del mondo Cantori.

Cantori represents and develops contemporary style, marked by delicate sensations, minimalist and sophisticated emotions, and by intimate shades of colour. Synonym of quality, craftsmanship, utmost care for details, all the requirements needed to guarantee a genuine, made in Italy product, Cantori is outstanding for its creations, designed to become unique, prestigious pieces of furniture. In every project Cantori respects the highest quality standards and carries out continuous technological research: these are the values of its refined taste. The beautiful shapes and the extraordinary variety of proposals may seduce at first glance. However, it is only by touching first-hand the quality of the materials and the solidness of the frames that you will truly understand the absolute inimitability of Cantori's world.

Nel 1976 Sante Cantori inizia ad utilizzare la variegata tavolozza del ricco tessuto artigiano della zona di Camerano.

In pochi anni si sviluppa un'azienda di stampo industriale che conquista con suoi prodotti ampi spazi di mercato in Italia e nel mondo, estendendo la sua attività al mondo dei grandi progetti residenziali e commerciali realizzando luxury projects, yacht, come pure Luxury hotel e office, dove i prodotti delle collezioni Cantori, convivono con arredi bespoke.

In 1976 Sante Cantori started to make the most of the richly varied network of craftsmanship skills in the area of Camerano. In just a few years, the company achieved industrial development, acquiring large market shares in Italy and worldwide, broadening its creative and productive activity in the world of large residential and commercial projects realizing luxury projects, yacht, and luxury hotel e office, where items of the Cantori's collections complement the bespoke furniture.

Oasi: emphatic, soft

“ *Il divano completa la collezione Oasi. La cintura serve per enfatizzare le morbidezze. Perché là dove la cintura stringe fuoriesce la parte morbida del divano. Questi effetti di pieghe per noi sono poesia. Sono inaspettate, sono qualcosa di emozionante. La maggior parte dei nostri prodotti sono trattati in questa maniera.*

È bello, enfatico, morbido, c'è una sensazione, prima di sedersi, deve essere accogliente.

"The sofa completes the Oasi collection. The belt around it is used to emphasize its softness, since where the belt is tighter, the softer part of the sofa is exposed. These crease effects are poetry for us. They are unexpected, they are something exciting. Most of our products are given this treatment.

It is beautiful, emphatic, soft. It transmits a feeling: it must be welcoming even before sitting down".

Maurizio Manzoni

How a myth is born

“Per il design della Twist si è partiti dall’idea di creare un oggetto di grande impatto e gusto estetico. L’eleganza che nasce da un tratto delicato e moderno è la caratteristica distintiva della collezione”.

Afferma lo studio di design Castello Lagravinese, ideatore della poltrona e divano Twist: “Questo progetto è nato in modo del tutto casuale, mentre guardavamo la vetrina di un negozio di scarpe nel lounge di un aeroporto: sapendo che potevamo contare sull’esperienza di Cantori e sulla perizia dei suoi artigiani nella lavorazione del ferro, abbiamo “vestito” la struttura metallica del divano e della poltrona con fasce di nabuk intrecciato, creando così un chiaroscuro davvero particolare, molto difficile da imitare.

“For the design of Twist armchairs, we started from the idea of creating an object with great aesthetic impact and value. An elegance deriving from delicate yet modern lines is the distinctive feature of this collection. This is particularly significant nowadays, since we are oriented more than ever towards foreign markets.” The design studio Castello Lagravinese, creator of the Twist armchair and sofa, further explains that: “This project was born in a completely casual way, while we were looking at the window of a shoe shop in an airport lounge: we knew that we could count on Cantori’s thirty-year experience, and on the skill of its artisans working with iron. So, we “dressed” the metal structure of the sofa and the armchair with woven nubuck bands, thus creating a very particular chiaroscuro, impossible to imitate.

Valley: protagonist

of the daily scene

Valley, il divano per i grandi ambienti, caratterizzato da una linea morbida ma rigorosa, con una fascia orizzontale in metallo che racchiude come in un abbraccio i suoi confortevoli e accoglienti cuscini e la grande chaise longue laterale. La sua eleganza di stile e la sua finezza raccontano una storia di comfort e di benessere.

Valley, the sofa thought for large rooms, features a soft but rigorous line with a horizontal metal band that encloses its comfortable and cosy cushions, and the large side chaise longue, in an ideal embrace. Its stylish elegance and finesse tell a story of comfort and well-being.

“ *I prodotti hanno sempre qualcosa di morbido e di avvolgente. Se si osservano bene hanno anche un riferimento alla moda o altri elementi come una cintura magari un anello nel quale viene incastonato un diamante. - Spiega l'architetto Maurizio Manzoni, designer delle ultime collezioni di successo di Cantori - Questo per me è l'anello in cui il mobile-gioiello poggia sulla base, che poi potrebbe essere anche la base di una scultura. Anche per i tre tavolini del modello Atenae, il concetto è sempre lo stesso. Qualcosa che avvolge...*

"Our products always have soft and enveloping character. If you look closely, they also have a visual reference to the world of fashion, by means of elements such as a belt, or perhaps a ring in which a diamond is set". Thus explains the architect Maurizio Manzoni, designer of Cantori's latest successful collections. "For me this represents the ring in which a piece of jewellery rests, which could then also be the base of a sculpture. Even for the three Atenae coffee tables, the guiding concept is the same. Something that envelops ...

”
