Cantori's style at 60th edition of
Salone del Mobile

The idea of a metallic embrace is also the guiding inspiration for the Valley line, the great protagonist of the 2022 collection, which includes tables, a sideboard, a buffet table, a sofa, and a bed. Another creation of Manzoni's, the Valley line is characterized by a metal band that "supports" and enhances the headboard, the back, and the sides of the furniture, as well as cylindrical feet with a clean design. In this line, the metal embrace is combined with pastel and green and black lacquers, as well as black ash wood and marble. In the cabinets and buffet tables, part of the glass door reveals the interior of the cabinet, finished in every detail.

L'abbraccio è la base progettuale anche della linea Valley, grande protagonista della collezione 2022, che comprende tavolini, madia, buffet, divano e letto. Disegnata anch'essa da Manzoni, la linea si contraddistingue per una fascia metallica che "sostiene" e valorizza la testata, lo schienale, i fianchi dei mobili - e da dei piedi cilindrici dal design pulito. In questa linea, l'abbraccio metallico si accosta a laccature nei colori pastello, laccature verde e nero, legno di frassino nero e marmo. Nei cabinet e buffet una parte dell'anta in vetro lascia trasparire l'interno del mobile, rifinito in ogni dettaglio.

Thus the Arcano table was born, a piece with a great personality that draws inspiration from the classic bollard, representing a "typically metropolitan and contemporary 'street product'" as explained by the designer, Maurizio Manzoni. Table with a concrete base surrounded by metal support tubes. Oval top available in black ash or lacquered with central detail in bronze or brushed pewter and with round top in black ash, lacquered or decorated in pewter with a concentric lathe for a spiral optical effect.

Nasce il tavolo dalla grande personalità Arcano, che trae ispirazione dai paracarro ed è un "prodotto tipicamente street, metropolitano e contemporaneo" come ci dice il designer Maurizio Manzoni. Tavolo con base in cemento circondata da tubolari metallici. Piano disponibile ovale in frassino nero o laccato con dettaglio centrale in bronzo o peltro spazzolato e con piano rotondo in frassino nero, laccato o decorato in peltro con una lavorazione a tornio concentrica per un effetto ottico a spirale.

"The 2022 collection is a perfect continuation of the path that Cantori started to follow four years ago. Indeed, it is consistent with the products that have already been developed as parts of previous collections. The new models are certainly even more innovative, not so much at a formal level but rather for the presence of metallic details, which make their return both on the upholstered products and on solid furniture". Maurizio Manzoni. In Cantori's new collection, the introduction of new materials such as cement, as well as the use of classic Cantori a material like metal, is accompanied by a functional design enriched by extremely sophisticated references.

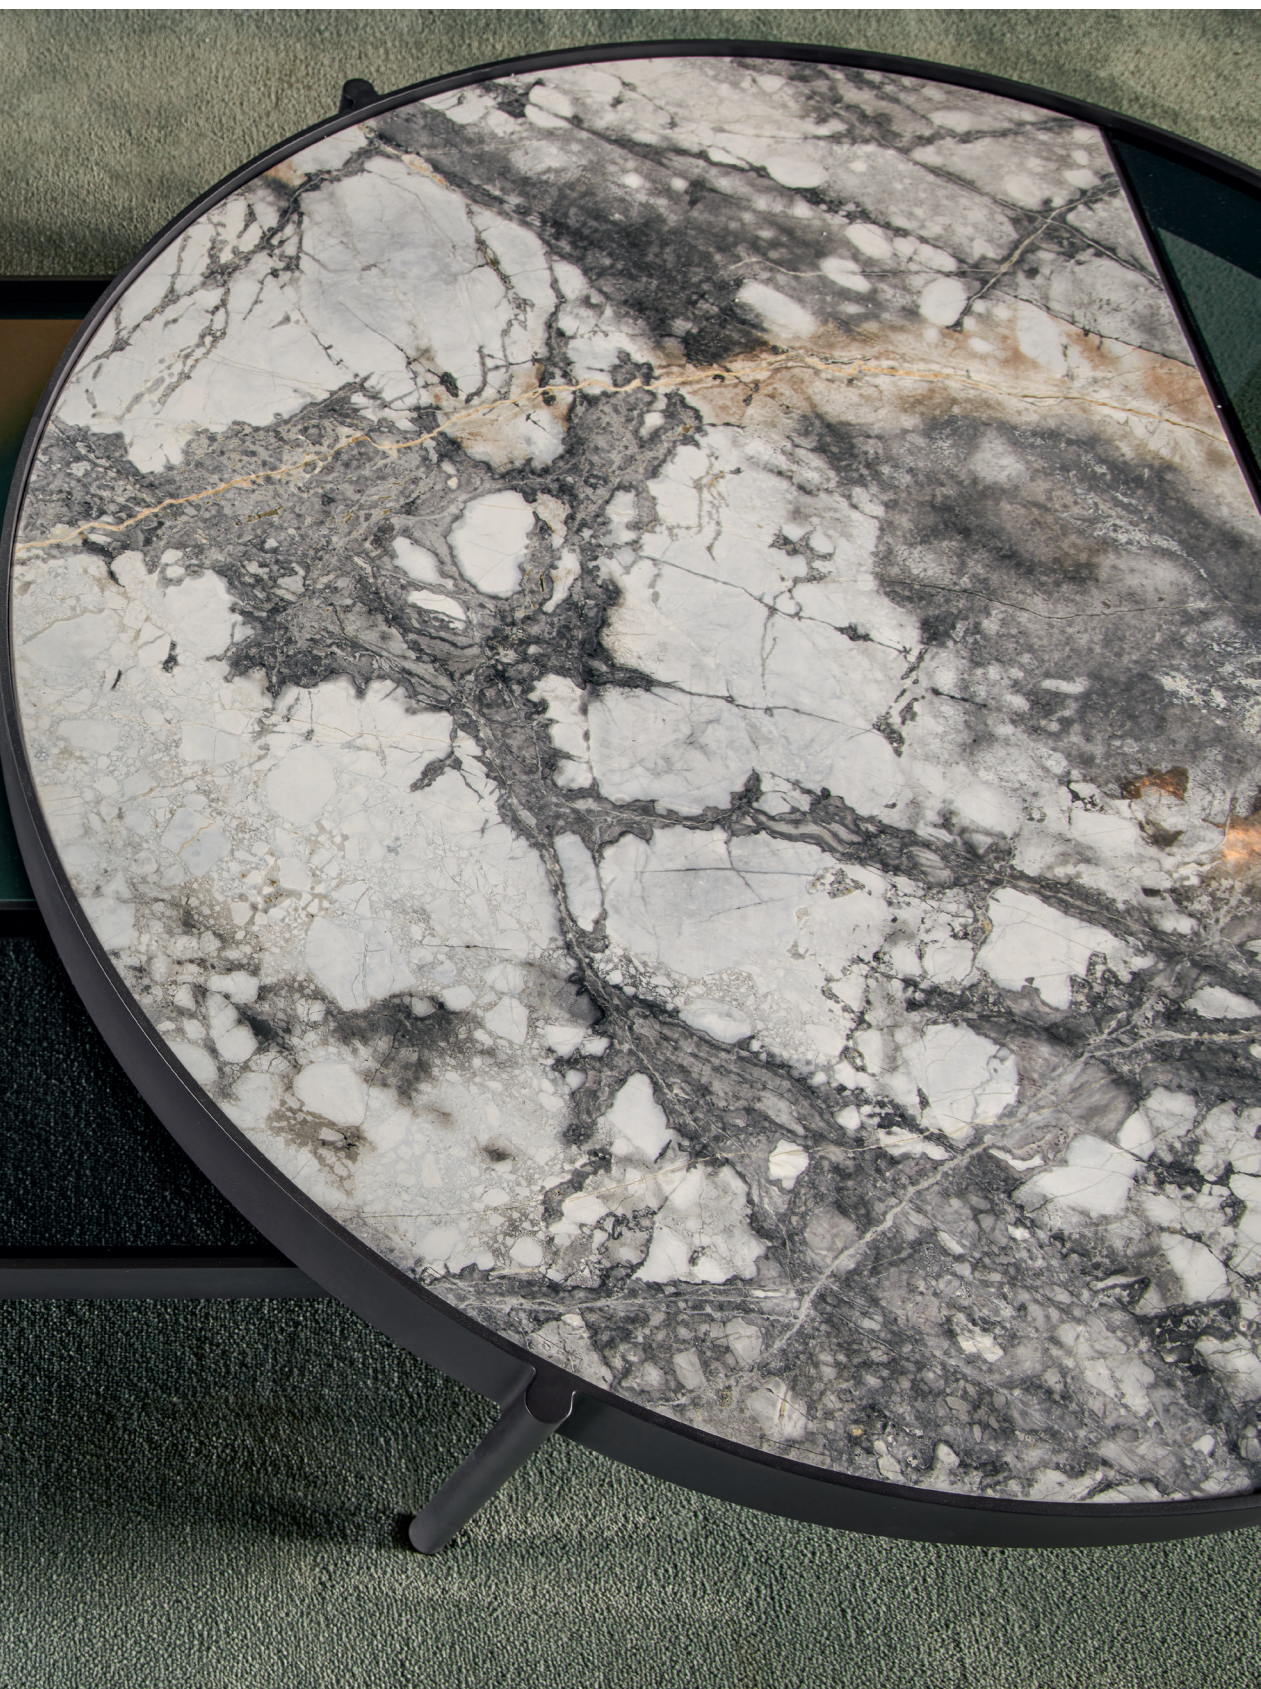

"La collezione 2022 si inserisce perfettamente nel percorso iniziato quattro anni fa con l'azienda Cantori. Infatti, risulta coerente con i prodotti già sviluppati nelle collezioni precedenti. I nuovi modelli sono sicuramente ancora più innovativi, non tanto a livello formale ma per la presenza di dettagli metallici, che ritornano sia sugli imbottiti e che nei mobili." Maurizio Manzoni. Nella nuova collezione di Cantori, l'introduzione di nuovi materiali come il cemento, e l'utilizzo di materiali cari all'azienda come il metallo, si accompagna a un design funzionale ma dai riferimenti estremamente colti.
